

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

THE BROADER ASPECTS OF RESEARCH IN  
TERRESTRIAL MAGNETISM<sup>1</sup>

## CONTENTS

*The American Association for the Advancement of Science:—*

*The Broader Aspects of Research in Terrestrial Magnetism: DR. L. A. BAUER . . . .* 41

*Charles Otis Whitman: F. R. L.; PROFESSOR ALBERT P. MATHEWS . . . . .* 54

*Scientific Notes and News . . . . .* 58

*University and Educational News . . . . .* 62

*Discussion and Correspondence:—*

*Inorganic Nomenclature: PROFESSOR J. H. RANSOM. Coastal Subsidence in Massachusetts: DR. CHARLES W. TOWNSEND. Calendar Reform: DR. SAMUEL G. BARTON. International Congresses: DR. F. A. BATHER* 63

*Scientific Books:—*

*Lankester's Monograph of the Okapi: DR. F. A. LUCAS. Tchirwinsky on the Artificial Production of Minerals: G. F. K. . . .* 65

*Scientific Journals and Articles . . . . .* 68

*Special Articles:—*

*Visual Sensations from the Alternating Magnetic Field: DR. KNIGHT DUNLAP. The Germ-cell Determinants in the Eggs of Chrysomelid Beetles: DR. R. W. HEGNER . .* 68

*The American Association for the Advancement of Science:—*

*Report of the General Secretary: PROFESSOR FREDERIC E. CLEMENTS . . . . .* 72

*Section A—Mathematics and Astronomy: PROFESSOR G. A. MILLER . . . . .* 74

*Societies and Academies:—*

*The Botanical Society of Washington: DR. W. W. STOCKBERGER. The Philosophical Society of Washington: DR. R. L. FARIS. The Northeastern Section of the American Chemical Society: KENNETH L. MARK . . .* 77

It has become the custom—fortunately or unfortunately as the case may be—that the retiring presiding officers talk on a particular subject, announced some time ahead, instead of being permitted to indulge in merely general reviews, as is the case in some organizations. Before I had a chance to think definitely on the matter, request was received from the permanent secretary four months ago that the title be furnished him at the earliest possible moment.

My original desire was to have the opportunity of talking to you on some more general subject than the one I have finally chosen. The topic, magnetism in general—a review of our fundamental ideas, the status of researches on the question “What is a Magnet”—appealed to me strongly. In connection with my researches in terrestrial magnetism, I have naturally been obliged to look occasionally out beyond and raise questions on the general problem of magnetism. When not only the permanent secretary, but the secretary of this section and the present chairman, began to make inquiries as to my subject, I had to settle upon something. And when I turned to your chairman for assistance in coming to a decision, and submitted to him several topics, *e. g.*, “The General Problem of Magnetism,” “The Physical Bearing of Problems of Terrestrial Magnetism,” etc., he indicated his preference for one relating

<sup>1</sup>Address as retiring vice-president and chairman of Section B (Physics), American Association for the Advancement of Science, given at Minneapolis, Minn., December 29, 1910.
